*Selected papers
from AI-2003/4
Poster Session*

EDITORIAL

Welcome to this year's first issue of Expert Update. The first thing to report is that our Expert Update editor, Frans Coenen, has decided to hand over his responsibilities to another BCS-SGAI committee member. Frans was instrumental in initiating this magazine which over the years has proved to be a useful information dissemination outlet for the BCS-SGAI.

In this issue of Expert Update we have a collection of papers from the AI-2003 and AI-2004 conference poster sessions. The selected eight papers are those that received the highest number of votes from the conference delegates at the poster sessions. In each year the paper receiving the best poster award is indicated with an asterisk.

Nirmalie Wiratunga

Acting Editor Expert Update

sgai-newsletter@bcs.org.uk

AI-2003

- | | |
|--|----|
| A Generic Similarity Searching Technique for Molecular Structures
<i>Andreas Bender, Hamse Y. Mussa, Stephan Reiling and Robert C. Glen</i> | 2 |
| What is CBR Competence?
<i>Stewart Massie, Susan Craw and Nirmalie Wiratunga</i> | 7 |
| FIONN: A Framework for Developing CBR Systems
<i>Donal Doyle, John Loughrey, Conor Nugent, Lorcan Coyle and Pdraig Cunningham</i> | 11 |
| * The Retailing Oracle
<i>Monica Casabayo</i> | 15 |
| Planning Requirements for Hierarchical Coalitions in Disaster Relief Domains
<i>Clairton Siebra</i> | 20 |

AI-2004

- | | |
|---|----|
| * Arrhythmia Identification from ECG Signals with a Bayesian Framework based ANN
<i>Dayong Gao, Michael Madden, Michael Schukat, Des Chambers and Gerard Lyons</i> | 25 |
| Consultative Rule-Based Intelligent System for Finite Element Type Selection
<i>Bojan Dolsak, Frank Rieg, Marina Novak and Reinhard Hackenschmidt</i> | 37 |
| Workflow Collaboration with Constraint Solving Capabilities
<i>Yun-Heh Chen-Burger, Kit-Ying Hui, Alun D. Preece, Peter M. D. Gray and Austin Tate</i> | 48 |
